

Joshua Apostol

Self-Taught Web Developer

Profile

I am a self-taught web developer with a passion for learning new technologies and creating innovative projects. Despite not having formal education in ICT, I have dedicated myself to mastering web development through self-learning and practical experience.

Skills

HTML

Proficient in structuring web pages.

CSS

Experienced in styling and layout design.

JavaScript

Knowledgeable in scripting and creating interactive elements.

Node.js

Familiar with server-side development and API integration.

Python

Basic understanding of Python for various applications.

Projects

NASHBOT FB BOT

Created a chatbot with 39 commands designed to assist with various tasks on Facebook Messenger.

AUTOBOT FB BOT

Developed a Facebook Messenger bot with 24 commands to help with educational tasks.

AUTO FB POST REACTION

Designed a tool for automating reactions to Facebook posts.

NASH API ENDPOINT

Built a REST API for creating bot commands and integrating with websites.

NGL SPAMMER

Developed a web tool for spamming NGL messages.

SPAM SHARE FB POST

Created a tool for automating the sharing of Facebook posts.

Education

Self-Learning

Ongoing self-study in web development, focusing on HTML, CSS, JavaScript, and Node.js.

Experience

Freelance Web Developer

Worked on various projects including chatbots, APIs, and web applications. Gained practical experience in full-stack development and client communication.
